

Pictet Wealth

PICTET'S NEW DIGITAL BANKING APP

We're pleased to introduce Pictet Wealth, our new app aiming at enhancing our clients' digital banking experience.

Pictet Wealth has been designed as an omnichannel e-banking solution to support our commitment to invest in digital transformation. It includes brand new features such as mobile payments, aggregated portfolio view, near real-time market data, and electronic signature.

KEY FEATURES

Full omnichannel experience

Experience a seamless user journey across all your devices with the same functionality, data, and user experience.

Payments

Make payments from your device at any place and at any time.

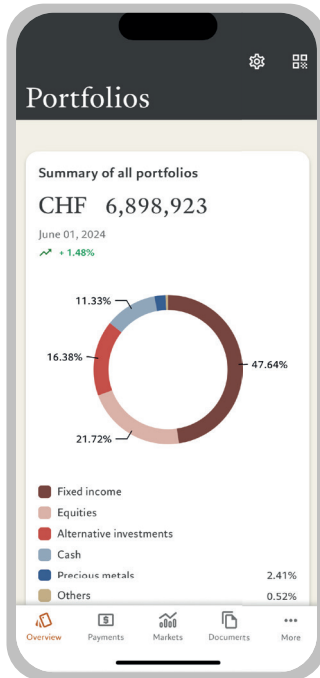

Insights

Read our latest insights, on economic and financial trends.

Secure authentication

Benefit from multifactor authentication with your mobile device.
Secure multifactor transaction signing for payments.

KEY FEATURES

Aggregated portfolio views

Consult your portfolios in one place and all currencies.

Document centre

Access all your banking documents in one place.

Settings

Set your user profile and manage notifications and preferences.

Manage your registered devices (web),
change your password, enable/disable biometrics (mobile)
and activate discretion mode (mobile).

KEY FEATURES

Market data

Access the financial markets, equities, FX-rates, or commodities with near real-time data. Create your personal watchlist and follow your favourite titles.

Electronic signature

Sign documents in a digital way, without any need to send paper.

...and more
